LOT OVERVIEW

ResidentialCondominium Pad

Lot 4 (4.24 acres) presents a rare opportunity to develop 60 for-sale or built-to-rent condominiums within a walkable, amenity-rich mixed-use master development in Lake Elsinore — one of Riverside County's fastest-growing cities. Five mid-density residential buildings totaling approximately 93,365 sq. ft. are planned on this entitled pad, with each building designed for efficient construction and strong per-unit economics in a supply-constrained market.

KEY HIGHLIGHTS

- **60 Units Across 5 Buildings:** A scaled residential program that supports efficient construction phasing — builders can deliver buildings incrementally to manage pre-sale or lease-up risk while maintaining construction momentum.
- **Walkable Mixed-Use Environment:** Residents enjoy on-site access to fuel, QSR, retail, and services — a lifestyle amenity increasingly demanded by Southern California buyers and renters willing to pay a premium for walkability.
- **Lake Elsinore Housing Demand:** The city has sustained among the highest residential absorption rates in Southwest Riverside County, driven by affordability relative to coastal markets and a growing employment base. Median home prices continue to rise.
- **For-Sale or Build-to-Rent:** The 60-unit program supports either a traditional for-sale condo model or a build-to-rent structure — offering developers flexibility to pursue the highest-returning exit based on market conditions at delivery.
- **Views & Lifestyle:** Lake Elsinore residents enjoy access to the lake, Cleveland National Forest recreation, and quick freeway connectivity — a lifestyle value proposition increasingly driving demand from remote workers and young families.
- **Entitled, De-Risked:** Nearing final Tentative Tract Map approval. Significant municipal engagement and entitlement work already completed — a critical head start in California's notoriously complex approval environment.

IDEAL TENANT / BUYER PROFILE

This pad is well-suited for the following categories of tenants, operators, and buyers:

- For-sale condo developer (production or luxury)
- Build-to-rent (BTR) operator or institutional landlord
- Regional homebuilder seeking infill mixed-use exposure
- Affordable housing / workforce housing developer (income-restricted overlay)

LOCATION CONTEXT

The Ortega Hwy & Grand Ave development is located at the southernmost direct commercial gateway between Riverside County and Orange County via SR-74. Westbound travelers face approximately 13 miles of undeveloped mountain corridor through the Cleveland National Forest before reaching commercial services on the Orange County side — making this site the definitive last-exit commercial node for fuel, food, and services. Daily traffic on SR-74 at this location runs approximately **50,000 + vehicles per day**, with elevated weekend recreational volumes from hikers, mountain bikers, campers, and coastal-bound families. Within a 5-mile radius, the population exceeds **90,000 residents** with a median household income above \$70,000, providing a strong local demand base to complement the corridor's traveler traffic.

- **Value Creation:** Coordinated development of the full site unlocks synergies between fuel, QSR, retail, car wash, and residential uses that no single-pad buyer can replicate.
- **Unmatched Market Position:** Owning the entire last-exit commercial node at this location is a generational real estate opportunity in Southwest Riverside County.
- **Institutional-Grade Scale:** At \$(Call for Price) the portfolio is appropriately sized for institutional capital, family office, or regional developer platforms.
